Mix*:

- 1 Cup Dawn (or Joy) Dish Soap with
- 1 Tablespoon Baking Powder (not soda)
- 1 teaspoon Guar Gum, more is not better.
(Bob's Red Mill brand in some grocery stores)
- **And/or** 1/2 teaspoon **J-Lube powder**

(online: try <https://www.valleyvet.com>)

OR instead add 3 Tablespoons Glycerin (from pharmacy)

*Make a slurry by mixing those ingredients very well to get the lumps out BEFORE adding 15 Cups Water, stir well as you add water.

Best bubble conditions are humid, cloudy days with a slight breeze. Foam is bad, scoop it off.

For my home-made bubble wands, avoid getting them dirty - clean and dry after use with cap(s) off sometimes. When the string (cotton piping) gets tangled just pull the end cap(s) off, untangle & put it back together.

A bit o' humor for you: How do you know when a joke is a Dad joke? When it becomes a-parent. 😊

Have Fun!!! ~ *Funmaster Rick*

4.5 Gallon Big Bubble Recipe

Wands, Bubble Recipe, Jokes, etc. at: <https://standupdaily.org>

Bubble Wiki: <https://soapbubble.fandom.com>

In a 5 - gallon pail mix*:

- 4 Cups Dawn** (or Joy) Dish Soap with
- 1/3 Cup Baking Powder (not soda)
- 1 ½ Tablespoons Guar Gum, more is not better.
(Bob's Red Mill brand in some grocery stores)
- **And/or** 2 teaspoons **J-Lube powder**

(online: try <https://www.valleyvet.com>)

OR instead add ¾ Cup Glycerin (from pharmacy)

*Make a slurry by mixing those ingredients very well to get the lumps out BEFORE adding 4.5 Gallons water, stir well as you add water.

Best bubble conditions are humid, cloudy days with a slight breeze. Foam is bad, scoop it off.

For my home-made bubble wands, avoid getting them dirty - clean and dry after use with cap(s) off sometimes. When the string (cotton piping) gets tangled just pull the end cap(s) off, untangle & put it back together.

A bit o' humor for you: How do you know when a joke is a Dad joke? When it becomes a-parent. 😊
